1. Prospect review – Each of the members reviewed the prospects they had been assigned. We have new pledges totaling \$157,500.
2. Next phase of fund raising – We have started working on the alumni list which will be part of the public phase.
3. Permanent recognition – There was some discussion about what there should be for permanent recognition. We need to make a decision on what the levels of recognition will be and how the donors of those levels will be recognized.
